Teacher Aides: Mary Donohue, Hope Green, Gail Hitchcock, Erin Holloway, Bethann Laars, & Lily Morales.

Color Codes in the Class Schedule Chart Below:

Red/Pink: These courses are geared to both the beginning and intermediate tatter. And for the 'brand new' tatter, individual tutors are provided right within the class!

Purple: This course is an introduction to an advanced technique.

Blue: These advanced courses have pre-requisite skill levels. Please see course description for required competencies.

Green: This session provides additional instruction for the student who wants more direction and time to complete a project begun in an earlier class. Feel free to join this class if you've been working at home on a pattern created by this designer, and would like some guidance in its' completion.

Conference Classes

Have you always wanted to learn more about a certain topic? Maybe you'd like to learn split or mock rings; or maybe those split chains need a little work? Sign up for the conference class! In this class, the students select the topics to be taught! You may send an email to tatting.teacher@gmail.com stating the topic you would like to learn, or write a note on the blackboard when you arrive. The teachers will present an individualized lesson based on your interests! (Go ahead! Try to stump them! If they don't know ... we are dedicated to finding someone who does!) The Conference Class is suitable for brand new beginners through masters level students!

Please make your selections before going to the registration page since you will be asked to select your classes at time of registration. Class registration is "first come, first served" so just incase a class is full, you may wish to have a 2nd and 3rd choice available.

See you there!
